

Simple and comprehensive research

StiftungSchweiz research combines powerful search and list functions for efficient foundation research. Thanks to helpful filters, an intelligent algorithm and intuitive operation, you can quickly find suitable organisations. Save suitable results in lists that you can share with team members and export. Or save a search and be notified of new results by e-mail.

- Search in a comprehensive foundation directory with over **15,000 organisations**
- Get precise results thanks to over **10 helpful filters**
- Get support from a smart **algorithm**
- Save, manage and export organisations in **lists**
- Use **intelligent lists** with smart suggestions and activity history
- **Save entire searches** and be notified of new results by **email**
