Research

Simple and comprehensive research

The StiftungSchweiz search combines powerful search and list functions for efficient foundation research. Thanks to helpful filters, intelligent algorithms and intuitive operation, you can quickly find suitable organisations. Save and manage your results in lists that you can share with team members and export. Comment, tag and prioritise organisations and use AI-supported suggestions to optimise your search.

- Search in a comprehensive foundation directory with over 15,000 organisations

- Get precise results thanks to over 10 helpful filters

- Get support from a smart algorithm

- Save, manage and export organisations in lists

- Work collaboratively in lists: Comment, vote, assign tags

- Use intelligent lists with smart suggestions and activity history
