

# Webinars and Trainings

## Step by step to more expertise

In addition to the core digital services on [stiftungschweiz.ch](https://stiftungschweiz.ch), services and training form an important bridge to our users. Our trainings are developed together with over 20 partner organizations to provide you with the best possible support. They cover seven subject areas that are explicitly tailored to the challenges in the nonprofit sector.

- **Webinars:** 30 to 60-minute online inputs that provide an overview of the respective topic in a short space of time.
- **Essentials:** 45-minute online inputs for a compact overview of a key topic in philanthropy, followed by a Q&A session.
- **Bootcamps:** One-day (or half-day) workshops (onsite and or online) that provide a comprehensive insight into a specific topic. Participants can test and further develop their own ideas and approaches.
- **Learning Journeys:** Five-day Bootcamps to cover a specific topic. Learning together as a group and advancing the topic in the sector. Co-creating and expand expertise through hybrid implementation.

- ✓ Access to subject matter experts
- ✓ Relevant topics specific to the philanthropic sector

- ✓ Flexible formats
- ✓ Networking and exchange with like-minded people
